Comments

“ Gary will always be there with me. His laugh was contagious. I painted and played music with Gary. I'll never forget the time at Belmont when I fell asleep on the job. He kindly woke me up and never said a word to me. I was painting night time somewhere else and day time with Gary. I'll never forget that he was the one guy that gave me a good job when I couldn't even find a bad one... Rest my friend in peace now...
